

	Republic of the Philippines BULACAN AGRICULTURAL STATE COLLEGE Pinaod, San Ildefonso, Bulacan 3010
	INTERNSHIP WEEKLY JOURNAL REPORT

Name of Student Intern: **QUIZON, KIER S.**
 SIPP Coordinator: **Prof. Michelle M. Cortez**
 HTE: **Bulacan Agricultural State College Main-Library**
 Job Description: Intern

Period Covered

Days: February 24, 2025 – February 28, 2025
 Hours: 40

1. OBJECTIVES

- To update and debug the integration of SweetAlert2 in BELMAppv2.0 for improved user notifications when adding PDFs to e-resources.
- To enhance the functionality and design of the Library Attendance System by redesigning the interface, adding essential elements (logos, footer, real-time date display), and ensuring proper input validation.
- To improve system reliability and accessibility by updating Bootstrap links to offline files and reviewing the Library Attendance System for further improvements.

2. REFLECTION FROM THE OBJECTIVES

- During the fourth week of my OJT, I improved my debugging and front-end development skills by integrating SweetAlert2 into BELMAppv2.0, ensuring smoother and more modern alert notifications. Working on the Library Attendance System allowed me to refine my UI/UX design abilities, particularly in redesigning the attendance in/out interface, adding branding elements, and improving real-time data display. Additionally, implementing JavaScript functions for input validation enhanced my problem-solving skills in ensuring system efficiency. Updating Bootstrap links to offline files reinforced the importance of system accessibility, ensuring that the design remains functional without internet access. These experiences strengthened my technical expertise, attention to detail, and ability to enhance system usability.

Date	Tasks Accomplished	Knowledge, Skills, Values Learned
24 February 2025	• Update and debug the new version of SweetAlert to SweetAlert2 for adding PDFs to e-resources in BELLmapv2.0. • Assist with LAN cable management.	<i>Knowledge</i> • Gained an understanding of upgrading JavaScript libraries, specifically migrating from Sweet Alert to SweetAlert2, and learned best practices for LAN cable management. <i>Skills</i> • Developed debugging and

		troubleshooting skills while updating SweetAlert2 for PDF additions in BELLmapv2.0 and improved technical support skills in organizing and managing LAN cables. <i>Values</i> Recognized the importance of maintaining updated software for better functionality and user experience, as well as the value of proper network cable management for stable connectivity.
25 February 2025	- Redesign the entire interface for attendance in/out in Library Attendance System. - Add the logos of BASC Main Library and DRT Campus in Library Attendance System. - Add a footer with the developers' names in Library Attendance System.	<i>Knowledge</i> - Gained a deeper understanding of UI/UX design principles, branding integration, and interface customization in system development. <i>Skills</i> - Improved skills in interface redesign, logo integration, and footer implementation to enhance the visual appeal and functionality of the Library Attendance System. <i>Values</i> - Recognized the importance of user-friendly design, proper branding, and acknowledgment of developers in system development.
26 February 2025	- Fixed and add a JS function for the required input field to ensure it works properly. - Added a JavaScript function to prevent input submission when left empty in in/out Library	<i>Knowledge</i> Gained a better understanding of JavaScript form validation, error prevention techniques, and the importance of system functionality reviews in development. <i>Skills</i>

	Attendance System. Participated in a meeting for the Library Attendance System to review and confirm the functionality and design of the newly added features.	- Enhanced JavaScript skills by developing and debugging input validation functions and improved collaboration skills through active participation in system review meetings. <i>Values</i> - Recognized the importance of thorough testing, user-friendly design, and effective communication in ensuring a well-functioning Library Attendance System.
27 February 2025	- Updated the real-time display to show the full date, including the day and month (e.g., Wednesday, March 3) in in/out Library Attendance System. - Updated the label text from 'Student Number' to 'ID Number' In Library Attendance System.	<i>Knowledge</i> - Learned the importance of real-time data formatting and consistency in user interfaces to enhance clarity and usability. <i>Skills</i> - Improved JavaScript skills by modifying real-time date display and enhanced attention to detail by ensuring uniform labeling in the system. <i>Values</i> - Recognized the impact of clear and consistent user interface elements in improving user experience and system usability.
28 February 2025	- Checked the Library Attendance System for any necessary improvements or additions. - Updated all online Bootstrap links to offline files to ensure the design works without internet access in Library Attendance System.	<i>Knowledge</i> - Gained an understanding of system evaluation for improvements and the benefits of using offline resources for better system reliability. <i>Skills</i> - Enhanced troubleshooting skills by identifying potential system enhancements and improved proficiency in managing Bootstrap dependencies for offline accessibility. <i>Values</i> - Recognized the importance of system optimization and

		Recognized the importance of system optimization and ensuring functionality regardless of internet availability.
