

	Republic of the Philippines BULACAN AGRICULTURAL STATE COLLEGE Pinaod, San Ildefonso, Bulacan 3010
	INTERNSHIP WEEKLY JOURNAL REPORT

Name of Student Intern: **QUIZON, KIER S.**

SIPP Coordinator: **Prof. Michelle M. Cortez**

HTE: **Bulacan Agricultural State College Main-Library**

Job Description: **Intern**

Period Covered

Days: **March 3, 2025 – March 7, 2025**

Hours: **32**

1. OBJECTIVES

- To enhance system stability and user experience by debugging input-related issues in the Library Attendance System and forum, ensuring smooth functionality.
- To improve user interaction and accessibility by adding alerts, back buttons, pagination indicators, and sorting functionalities across different systems.
- To optimize access to educational resources by configuring startup URLs on Learning Commons PCs, directing users to the E-Padaloy Open Access eBooks project.

2. REFLECTION FROM THE OBJECTIVES

- During the fifth week of my OJT, I focused on debugging and refining various system functionalities to ensure a smoother user experience. Fixing the attendance input issue in the Library Attendance System and resolving the forum's misdirected icon click improved system stability and navigation. Adding interactive elements, such as alerts for invalid input and unchanged replies, a back button for reply edits, and pagination indicators in BELMApp v2.0, helped enhance user accessibility. Additionally, setting up the startup URL for Learning Commons PCs reinforced the importance of providing easy access to academic resources. These tasks strengthened my problem-solving skills, front-end development expertise, and attention to detail in improving system usability.

Date	Tasks Accomplished	Knowledge, Skills, Values Learned
3 March 2025	• Debugged the issue with the attendance in/out input to ensure that the page no longer turns white when no text is entered. This improvement enhances the system's stability and prevents potential display errors. • Adding a JavaScript function that will	<i>Knowledge</i> • Gained a deeper understanding of error handling and user input validation to improve system stability and functionality. <i>Skills</i> • Enhanced JavaScript skills by debugging input-related display issues and

	automatically display an alert whenever text is entered, informing the user that an invalid User number has been detected.	implementing real-time validation alerts for invalid ID numbers. <i>Values</i> Recognized the importance of proactive error prevention and user-friendly feedback in creating a more reliable and efficient system.
4 March 2025	Excused from duty due to the graduation pictorial.	
5 March 2025	- Debugged the issue with the forum's icon, which previously redirected the split screen to the homepage when clicked. This update ensures proper functionality and a smoother user experience. - Added a back button when users edit their own replies, allowing them to easily return if they accidentally access the edit function. This improvement enhances user experience. - Added an alert message that will notify users if they attempt to edit their reply without making any changes, ensuring they are informed before submitting.	<i>Knowledge</i> - Gained a better understanding of user interface behavior, navigation control, and validation techniques to enhance system usability. <i>Skills</i> - Improved debugging skills by resolving redirection issues, enhanced UI/UX design by adding navigation controls, and developed JavaScript validation techniques for better user feedback. <i>Values</i> - Recognized the importance of intuitive navigation, user-friendly design, and proactive feedback in improving overall system functionality and user experience.
6 March 2025	Adding an active button in the pagination for the log history on the admin side	<i>Knowledge</i> Gained insight into enhancing user accessibility through

	of BELMAPP v2.0 to improve accessibility and management for administrators. Setting up the startup URL on the browsers of PCs in the Learning Commons ensures that students have instant access to the E-Padaloy Open Access eBooks project by the University of the Philippines Library, which includes Wiley Academic Books.	pagination improvements and configuring browser settings for streamlined access to educational resources. <i>Skills</i> - Improved UI/UX design skills by implementing active pagination buttons and developed technical proficiency in configuring startup URLs on multiple devices <i>Values</i> - Recognized the importance of accessibility, efficiency, and user convenience in system navigation and resource availability.
7 March 2025	Added a sorting functionality to the table in the inventory system on the admin side to improve data management and organization.	<i>Knowledge</i> - Gained a better understanding of data sorting techniques to enhance user experience and system functionality. <i>Skills</i> - Enhanced skills in developing table sorting features to optimize data organization and accessibility. <i>Values</i> - Recognized the importance of well-structured data presentation for improved system navigation and effective administrative management.
